

Support the Climate Change Act

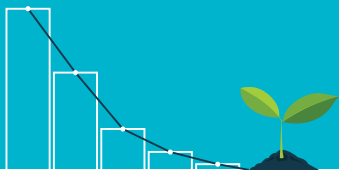

What's this all about?

We listened to the science on Covid-19. Now we need to listen to the science on climate.

Adopting the Climate Change Act will set Net Zero by 2050 in law and provide a long term plan for business investment. It's time to flatten the curve on our emissions!

How does the Australian Climate Act work?

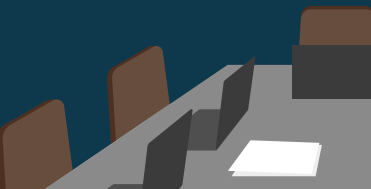

Long-term target to 2050 Zero Emissions

Implement climate safety plans

Independent advisory body

Develop new green technologies
